The following action would be taken by MCCIL in this regard:-

1. Futures Contracts Adjustment:

All open positions in Futures contracts with the underlying security as VEDL existing after End of day on September 07, 2021 will be adjusted as under:

All positions in futures contracts with the underlying security as VEDL would be marked-to-market on the last cum-dividend date i.e. September 07, 2021, based on the daily settlement price of the respective futures contract.

Adjusted futures price shall be arrived at by reducing the Dividend amount of Rs. 18.50/- from the daily mark to market settlement price of the relevant futures contract on September 07, 2021. Subsequent to such processing, open positions shall be carried forward at the adjusted futures price for the respective futures contract.

Begin of day margins on September 08, 2021 would be computed for the futures contract with underlying as VEDL based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.
