The following action would be taken by MCCIL in this regard:-

#### **1. Futures Contracts Adjustment:**

All open positions in Futures contracts with the underlying security as **Vedanta Limited (VEDL)** existing after End of day on May 05, 2022 will be adjusted as under:

All positions in futures contracts with the underlying security as **Vedanta Limited** would be marked-to-market on the last cum-dividend date i.e. May 05, 2022, based on the daily settlement price of the respective futures contract.

Adjusted futures price shall be arrived at by reducing the dividend amount of Rs. 31.50/- from the daily mark to market settlement price of the relevant future contracts on May 06, 2022. Subsequent to such processing, open positions shall be carried forward at the adjusted futures price for the respective future contracts.

Begin of day margins on May 06, 2022 would be computed for the futures contract with underlying as VEDL based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.
